From: Mid Valley School District

Re: Dual Enrollment Program

This letter is to inform you of the opportunity for students in grades 11th and 12th to qualify and earn college and high school credit concurrently through dual enrollment in Mid Valley School District. Dual enrollment is offered for the fall and spring semesters.

Dual enrollment is an effort by the Commonwealth of Pennsylvania to encourage a broader range of students to experience postsecondary coursework and its increased academic rigor while still in the supportive environment of their local high school. The program helps introduce more students to the advantages of postsecondary education and is for the capable, not just the exceptional student.

Students in the district who are homeschooled or attend private schools may be eligible to participate in this program through the Mid Valley School District. All students in the district must follow the same guidelines to be admitted into the program and must have a grade point average (G.P.A.) of at least 3.2 in order to be eligible. Students will be asked to provide academic information to verify eligibility. Dual enrollment courses may not replace a core class at MVSC.

Dual enrollment allows students the opportunity to take a college course either at Lackawanna College, Marywood University, Penn State University Scranton Campus or the University of Scranton, where college credit may be earned and possibly transfer to the college/university they choose to attend. Although there is a cost involved when taking dual enrollment courses (tuition, books, and fees), it would be advantageous to the student because tuition costs are given at a reduced rate. All costs must be paid in full at the time of registration by the student and/or parent/guardian. The Mid Valley School District will assist in offsetting costs by reimbursing a portion of the class. This number will be determined from the total number students participating in the dual enrollment program each year.

If you would like to inquire more information about dual enrollment, please contact the guidance department.
